RIGHT VIEW

Scale 1:10; looking at the right side (along -X)

HOW TO MAKE IT AND HOW IT FITS

Columns: two UPN 80, 842 long, webs facing each other, 196 apart (web faces); open sides face outward.

In each web: 4 x 18 holes at 18 each side of centre, 687 and 767 up from the column foot (mold bolts).

In the +Y web only: two 40 access holes on the centre line, 210 and 611 up from the foot (base pin and upper pin).

In the -X flange of each column: 2 x 13.5 holes 32 from the web face, 113 and 158 up from the foot (tie bolts).

Feet: 16 mm plates 140 x 90, 4 x 13.5 holes at 110 x 70.

Beam: two 20 x 100 plates 286 long, on the outside faces of the column flanges, tops 185 up from the foot; the -X plate drilled 13.5 through with the flange holes.

Lugs: two 20 mm plates 80 x 95 between the beam plates, 56 apart inside, with a 41 bush hole 210 up from the foot.

Weld on a flat table; check the webs are parallel and 196 apart.
